APPRECIATION OF THE STOCK WITHOUT ANY APPARENT CAUSE.

General Tone to the Market Was Drooping-No Business with Indianapolis Board of Trade.

At New York, Monday, money on call

was easy at 1 per cent. Prime mercantile paper, 2%@4% per cent. Sterling exchange was dull, with actual business in bankers' bills at \$4.88% for demand and at \$4.87% for sixty days; posted rates, \$4.881/204.90; commercial bills, \$4.861/2.

Bar silver closed at 62%c per ounce;

Silver certificates, 64@65. Total sales of stocks were 150,160 shares. The week opened on the Stock Exchange with a generally heavy tone to the speculation, and during the greater part of the day prices drooped. There were evidences of liquidation in some few stocks, and London was a moderate seller of the arbitrage specialties. The cutting down of the dividend of the New York & New Haven from 21/2 to 2 per cent, had a depressing influence on the other dividend paying stocks, which are under suspicion of contemplating the scaling of the rate of the dividend. The decreased earnings of St. Paul for the first week of June had a weakening influence on the stocks of the Western roads, particularly the grangers. In the industrial group, the trading was irregular. Sugar, which led in the transactions, was pressed for sale at the opening, and broke 11/2. The selling movement was not of long duration, and the room traders took up the buying, with the result of establishing an advance of 34, with a subsequent reaction of 14 and a final recovery of 1/2, making a gain on the day of 11/4; the preferred stock declined

the day of 14; the preferred stock declined
4. There was no news from Washington
on which to base the advance, and it seems
to be entirely due to manipulation by the
trading element. Tobacco, which rose 1,
and Distilling, which made a net gain of
4. were the only other industrials to show
higher figures than Saturday's final sales
at the close. Chicago Gas sold down 14 in
the early dealings on a report that the the early dealings on a report that the Attorney-general of Illinois proposed to prevent the company from paying any money for dividend purposes to the Fidelity Company, of Philadelphia, on the ground that the companies are doing business in deflance of the State law against trusts. During the late afternoon purchases to cover short contracts brought about a rally of %. In the late dealings the speculation became fairly strong for the general ist, and there was a partial recovery of the early losses, as compared with Saturday's final sales, the closing prices showing declines of 3% in New York & New Haven, 13,01% in United States Leather preferred, 1% in General Electric, 14 in Delaware, Lackawanna & Western, Delaware & Dudson and Norfolk & Western preferred, 11/2 in Burlington, 1 in Michigan Central, Susquehanna & Western preferred and Lead preferred, and 3/4 in St.

The bond market was steady during the morning and firm in the afternoon. The principal changes were: Advances Atlan-tic & Pacific fours and Baltimore & Ohio fives of 1885-1925, each 2, Chicago People's Gas consol sixes, 1½: Peoria, Decatur & Evansville, Evansville division firsts and Omaha consols, each 1. Declines: Chicago Gas firsts, 11/2; Union Pacific collateral trust fives sold at 611/2, against 70 on Jan.

Government bonds were firm. State bonds The following table, prepared by James E. Berry, Room 16, Board of Trade, shows the

LOCAL GRAIN AND PRODUCE. Fair Trade on Wholesale Street-

Sugars Higher. Wholesale men report a fair day's business for yesterday. There were but few changes in prices. Sugars advanced lac and coffees are firm. Poultry and eggs are in good request and prices steady Old potatoes were selling yesterday at \$1.15 per bushel, while new potatoes dropped to \$3.50 per barrel. It is not thought that the old

potatoes will long bring the prices quoted.

Strawberries are in light supply, and choice ones yesterday sold as high as \$4 a crate of twenty-four quarts. The hide market is quiet and prices easy. Tallow goes off 4c. Receipts of wool continue large; prices weak and but little prospect of an early improvement. Hardware men report trade some better than last month, but still far below its usual June volume. Druggists are busy. Linseed oil is up 2c a gallon.

It being the day for the election of officers for the Board of Trade there was no call and quotations on grain are the same as on Saturday.

The Care of Blankets.

Demorest's Magazine. In the matter of blankets housekeepers are not agreed as to the kind of treatment they should receive. Some over-nice women have them laundered almost as frequently as bed spreads, and can hardly count one nice soft pair among their belongings. Others, over-nice in a different way, make the mistake of taking the bed spreads off at night, and leaving the blankets exposed to dust and dirt, which they take and hold much more readily than does the spread. Very few ordinary laundresses understand the proper handling of blankets, and when they are so soiled that thorough beating and airing does not refresh them, it will be money in the pocket to send them to the professional cleaner. By some magic of their own they succeed in cleaning them year after year and return-ing them always soft and looking "as good as new. You can save your blankets much un-

necessary soil by taking good care of superfluous pairs in the summer, and fre-quently airing and beating those that are in use. The former should be hung in the sunlight and air for several hours, and then be packed away; put sachets of lavendar, cloves and pepper between their folds, wrap them in old sheets, and then slip them into paper bags. Paste the ends together so nothing, not even dust, can penetrate to the inside.

Use the asbestos mats under pots and pans on the stove to prevent burning the food. They are practically indestructible and conduct the heat perfectly. They cost but a few cents and can be bought at all shade lower on the government crop re-house-furnishing shops, 2.50@2.80 and betters our condition to bought at all port, but afterwards recovered and closed Common thin sheep and yearlings., 2.00@2.30 Indianapolis, June 11. house-furnishing shops,

HIGHER CLOSED

CHICAGO WHEAT FIRMED UP AFTER A WEAKER OPENING.

Government Crop Report Was Bearish, but Its Influence Overcome Later-Provisions Higher.

CHICAGO, June 11 .- After a weak opening on the bearish government report, wheat to-day did some long-distance fluctuating and closed 1/2c higher on the generally bullish news of the day. Corn closed %c higher, oats unchanged and provisions higher all around.

There was a heavy trade in wheat within 13, @1%c range. The opening was weak at %@14c under Saturday's close, but gradually advanced 11/2c, declined 1/2c, rallied 1/4c, declined %c, changed some, ruled steady and closed near the top. The lower opening was attributed to the government report, which made the condition of winter wheat 83.2 against 81.4 last month, and area at 99 per cent. Both the condition and the area were higher than expected. The spring wheat condition was reported at 88 and the total crop of spring and winter estimated at 410,-000,000 bu. The feature was the heavy buying by local professionals and the larger commission houses who sold freely Saturday. Room traders sold freely at the start, but finding an vrgent demand hastened to cover their early sales. The stronger tone was due to the liberal decrease on ocean passage, the decrease in the visible, stronger continental cables and to dry weather reports from the Northwest, which were again quite numerous.

Corn was active within 1%@14c range. Selling at the start caused an early de-cline, but the action of wheat created a strong market at the close.

Oats were active, declining early on the government report, and reacted later on good buying. The market closed near the top after 1%c range.

Provisions were generally firm on a scar-city of offerings and higher prices for live hogs. The action of wheat, too, helped prices. Compared with Saturday night, July pork is 15c higher, July lard .05c higher and July ribs .10c higher. Freights slow, moderate offerings at 1%c for corn to Buffalo. Receipts to-day were: Wheat, 12,000 bu; corn, 183,000 bu; oats, 167,000 bu. Shipments: Wheat, 31,000 bu; corn, 342,000 bu; oats, 121,-

Wants a Retail Grocers' Association. To the Editor of the Indianapolis Journal: As the wholesale grocers have taken an independent stand and are united in causing the retail merchant to pay an extra fee with each and every bill, it now becomes the duty of the latter to make an independent move also. We are, by their rules, compelled to pay them a profit on their goods, which they figure high enough to pay all their expenses and leave them a snug profit. After figuring the packing, boxes and drayage in on the first profit, to make it doubly sure, they wind up each bill by a direct charge for boxes, drayage and bags, thus making us pay the same charge twice. If we are to pay for bags, old boxes and drayage twice, freight and drayage at home, the out-look for the already close profits of the retailer is rather obscure. We are obliged to divide our goods for our customers into small packages, averaging from ten to fifteen packages to the dollar, furnish paper, twine, and frequently a box, which will not cost us less than 10 cents; we also deliver the goods free of charge, If can stand all this, surely a can pack and deliver our goods at the depot. We divide our sugar into lots of from 5 cents to \$1, wrap it, and feel elated if we get original cost-wrapper, labor and delivery thrown in; while the jobber wishes to sell from twenty-five to one hundred barrels a day and clear an average of \$1 per barrel. Suppose we want to buy ten barrels of sugar at a time, we pay them the handsome little profit of \$10 for transferring it to us.

The jobbing business has stood many long years, and many jobbers have grown and retired; now, why put up the pitiful cry of unity, more profits and double pay for package and drayage? As this thing is just a starter of what is to follow, suppose we form a retail grocers' association, not for the purpose of charging our customers more for their goods, but to buy them cheaper and give the customer the benefit. This can be done in various ways. We can establish a warehouse at a central point, buy direct from the packers, manufacturers, etc., and have a buyer and an overseer, or we can unite in patronizing an independent jobber, who would not be hard to get. I would like to hear by mail from the retailers a few suggestions, or at least whether or not they favor such a move.

Knightstown, Ind., June 11. A Discouraged Citizen.

To the Editor of the Indianapolis Journal:

I freely confess that I am bewildered in trying to find out the rights and privileges of elective and corporate bodies, and "plunged in a gulf of dark despair" when I search for the rights of citizens. Take, for instance, the street railroad. Years ago men bought property and builded nomes here. In course of time, to keep pace with the improvements of the day, and put money in the pockets of a corporation, a street railroad was projected. The servants of the public, the City Council, who decided this very important matter, were not worthy of the trust they held of they never would have placed the citizens of Indianapolis in the position that they now find themselves. The right of way was given to this corporation, and no amount of protest could prevent the use of a street for a car line. It is all very well for men who live on the streets that, by favor, have been exempt from the disagreeable surroundings of the street car. to uphold and legislate for the corporation; they suffer none of the incon-veniences. But we cordially invite them to come for a week and visit those of us who live on the car lines; we will give them front rooms, and allow them to have full benefit of the "thrashing machines, We cannot sit on a porch and carry on a conversation, or inside the house with open doors and windows without the greatest annoyance and discomfort. In homes where there is Illness the rattle of the neglected machinery of the car, especially after dark, is so disturbing to the nerves that it is painful. And yet there are parmen who own the street-car lines of this city are not residents and are in it for financial benefit) who are working to put the citizens in a position that they will
